

**MERRY
XMAS AND A
HAPPY NEW
YEAR FROM**

.....

The Terror Bytes of Power

*Two terabytes per day to retain all Google searches
Five keeps the content from surveillance perches
Seven for Skype when one speaks to mates
Twelve stores the traffic which flows to the States
And in the darkness where the watchers are
Few laws to obey. Nor rules that bar
And for privacy let the protection die
In a secret state where the shadows lie.*
